

• CRAFT/PROFESSION

Corinne GOVAN has put her teaching job on hold to devote herself to her passion. She loves using her hands to paint and decorate glass and porcelain items, endowing cups, plates, glasses and vases with fresh and vibrant life.

Corinne adores creating unique, personalised designs to delight individual customers. Corinne paints freehand, using special glass paints which she leaves to dry naturally before firing her pieces in a kiln for an hour at 160°.

She has also begun working as a face painter, creating stunning designs for kids and adults and transforming faces into works of art.

• BACKGROUND

For Corinne, art is a therapy that has stimulated her creativity. Scrapbooking was her first love and she spent 5 years creating albums and embellishing photos and memorabilia.

She then turned her talent to creating face art whilst also giving full range to her creative skills as a painter on glass.

• INSPIRATION AND ART/DESIGNS

Corinne's vibrantly colourful designs draw on her daily life and the people and places around her.

Photos, images, ideas, encounters and feelings are all sources of inspiration. Flowers, turtles, kagus, outrigger canoes, Kanak huts and many other aspects of everyday life such as sports activities and local figures all appear in her colourful designs.
